Myla- That sounds fine to keep an internal meeting for the 7th. I told Tina we would go ahead with the 7th and she was planning to relay to the epa members that they are not needed at the 7th meeting.

Thanks,
Eric

Where: DEQ RES Room 242

Eric –

Mike (and I very much agree) would like to continue with this meeting on the 7th, even if EPA is unable to participate. Internally, it will still be quite useful for a wider DEQ group and management to understand what the analysis shows. Do you have suggestions as to who should be included in this invite?

Myla

Hi Myla, Tina;

Turns out the 7th of September is a better day for us to regroup and compare notes on our respective analyses for costs and any updates to variance limits by group. Also gives everyone more time given the business of the season.

Tina, please forward to others on your end as you see fit.

Thanks, Mike
